*Thunderbird*

The Northwest Vintage Thunderbird Club (NWVTC) is for people that share an interest in the Ford Thunderbird. Whether you are looking at restoring a Thunderbird or just want to drive your Thunderbird to interesting places with a group of like minded folks, this is the place to be. We welcome all models of the Thunderbird that were produced over fifty years.

The club serves several functions: as a forum for exchange of information on Ford Thunderbirds, as an aid to members in restoring and preserving their cars and to provide activities, fun and fellowship to its members.

The 30+ year old club is affiliated with two international clubs (membership in these clubs is not required to join NWVTC) so even if you take your Thunderbird on the road, you'll find other "birds of a feather."

We welcome you to come out and give us a test drive at one of our meetings. Or check out the club website at [nwtbirds.org/nwtbirds](http://nwtbirds.org/nwtbirds).
